DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(a) as being anticipated by Park. Park discloses a cooling structure of a projection television having an upper cabinet including a mirror case, and a lower cabinet (not numbered), wherein a first internal duct 51 is formed by a joint surface between the mirror case and the lower cabinet and an inlet and an outlet of the first internal duct are formed in the mirror case (see Fig. 4, Fig. 5 and Fig. 6), so as to constitute a first cooling flow path for cooling liquid crystal panels of an optical unit 72 provided in the lower cabinet; the first cooling flow path is a closed circular path consisting of a closed space formed by the mirror case and a screen, a chamber that houses the liquid crystal panels and the first internal duct.

Allowable Subject Matter

3. Claims 3-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
